

## **Monterey Laundry Rooms 1 and 2**

Our Laundry Rooms 1 and 2 got a new look! We are pleased to announce that both of Monterey's laundry rooms were remodeled. It took a couple weeks to repaint the rooms, and install the brand-new commercial washing machines and dryers. This change was highly anticipated and long overdue. In hopes to preserve the longevity of the new machines, we urge you to **ONLY** use **LIQUID** soap, as powdered soap will cause damage to the washing machines. Let's all be conscientious and handle the new washing machines and dryers with care so that we can use them problem-free for years to come.
